THE EMERGENCE OF THE MILITARY PROSECUTOR'S OFFICE IN THE KINGDOM OF SERBIA

Summary: In this paper, the author presents the course of the emergence of the prosecutor function in our country, whose roots are in the military justice, as well as how the current appearance of the institute of public prosecutor's office came from. The great importance of the military prosecutor's office lies in the view of the army as an organization to which states pay great attention, considering it their support and guardian of the stability of the existing state system, and accent was always placed on respecting its discipline. Since the terms army and discipline have always intertwined, there is a need to study their joint evolution together with the military state prosecutor's office, as a special body to protect their existence, internal organization and its unhindered further development.
